

## Heart of the Issue

### Introduction

The most important thing doesn't always get the first priority—but it should. What will it take to stop being distracted by the urgent and start focusing on the meaningful? Today, let's slow down and decide to put first things first.

### Pray

Don't forget that if anything significant happens, it's because God moved. Start by asking God to bless this time.

### Practice Truth

1. When have you visited a restored building? What was your experience?
2. What area of your life feels like it has gotten away from you, like an inner tube on the water?
3. Luke 19:10 Jesus says of himself: **For the Son of Man came to seek and to save the lost.** Is this how you have experienced Jesus? why or why not?
4. Through the message we were challenged with the idea that: **Guiding our heart toward God is better than planning to do the right thing for God.** Do you agree with this idea? Why?
5. What practices have helped you "start with your heart" to guide your heart toward God daily?

### Doing Life Together

How can this group help you "start with your heart" this week?
