

Find Your Purpose

Introduction

Drift happens—usually it's not even noticeable. A relationship you used to value just doesn't mean as much anymore. Spending time with God becomes less important. How can you stop the drift and return joy to the places and people you love?

Pray

Don't forget that if anything significant happens, it's because God moved. Start by asking God to bless this time.

Practice Truth

1. What are some ways you stop spiritual, relational, or financial drift in your life? Don't forget to add your ideas to the Stop the Drift display at church!
2. Dirk shared where he gets "caught up in the current" during youth sports. Where do you get caught up in the current?
3. Daniel 2 is about a dream's interpretation. Do you believe God still speaks through dreams? Why or why not?
4. Where did Daniel say the interpretation came from (see Daniel 2:27-28)? Why is this important?
5. Dirk challenged us to play a supporting role in the greatest story ever told. What does that line mean to you?
6. Matthew 2:1 says that magi came from the east to worship the new king. Assuming these were the professional descendants of the magi in Daniel's day, why would they have waited for so long? What does that tell you about waiting for the return of Jesus?

Do Life Together

Last weekend Dirk asked, "How will you use your kingdom in light of the kingdom that never ends?" In other words how will you use your time, talent, and treasure to make an eternal, everlasting impact?
